

## About Us

It is becoming more and more apparent that certification has become one of the main credentials employers are seeking. According to CompTIA 91% of employers believe that IT Certification is a good predictor of successful employees and 72% of employers require IT certification for certain positions.

**Who We Are:** Cert Academy Online was developed by a group of post-secondary school professionals that have a combined over 60 years of adult career school experience.

We have seen the challenges that individuals have with funding their education. We want to develop a professional development resource that will provide certification prep for the ever changing job market.

**Unique Opportunity:** Cert Academy online offers individual the unique opportunity to acquire certification and professional development focused resources at an affordable rate.

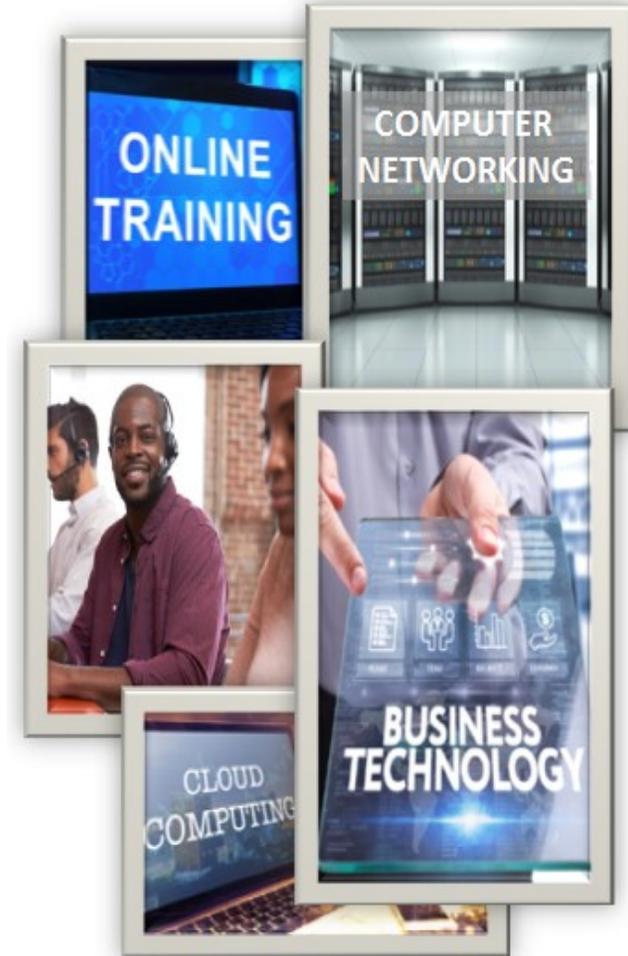

## LEG-UP SCHOLARSHIP

Ffive in partnership with Cert Academy Online has established the Leg-Up Scholarship to develop and prepare individuals for our future economy. Individuals obtaining the scholarship will get training to prepare them for technical, administrative and accounting certifications.

## Scholarship Drive

We are seeking to partner with churches and non-profit organizations to conduct scholarship drives that will enable your organization to award scholarship to your members or individuals in your community.

### Soft Skills

Soft skills are the personal character traits or qualities each of us has. They make up who we are, generally encompassing our attitudes, habits and how we interact with other people. The ability to provide customer service, displaying a positive attitude, effectively communicates in both writing and verbally is crucial for success.

## CompTIA Certifications

**A+ Certification-** IT success stories start with CompTIA A+ certification. It validates understanding of the most common hardware and software technologies in business and certifies the skills necessary to support complex IT infrastructures.

**Network+** The second step to IT proficiency is the CompTIA Network+ certification. Network+ is a vendor neutral networking certification that is trusted around the world. It validates the essential knowledge and skills needed to confidently design, configure, manage and troubleshoot any wired and wireless networks. CompTIA Network+ certified individuals are in-demand worldwide.

**CompTIA Security+** is the certification globally trusted to validate foundational, vendor-neutral IT security knowledge and skills. As a benchmark for best practices in IT security, this certification covers the essential principles for network security and risk management – making it an important stepping stone of an IT security career.

**CompTIA Server+** validates your skills with the most commonly used server and storage systems in the IT industry. This certification demonstrates an impressive knowledge base that narrows the skills gap and provides the hands-on experience that businesses need.

**CompTIA Cloud+ Certification-** validates the skills and expertise of IT practitioners in implementing and maintaining cloud technologies. Cloud+ accredits IT professionals with the constantly changing and advancing knowledge they need to be successful in today's cloud environment.
